Fee Protection Scheme(FPS) and Student Contracts

Stamford American
INTERNATIONAL SCHOOL

Fee Protection Scheme

The Fee Protection Scheme (FPS) serves to protect students' fees in the event a private education institution is unable to continue operating due to insolvency, and/or regulatory closure.

The FPS is applicable to all students regardless of nationality and the type of passes held by the students, i.e. dependent's pass, student's pass, work permit etc.

In compliance with the new regulations under the Private Education Act 2009, all students' fees must be insured under the Fee Protection Scheme (FPS). All Stamford students are now covered by way of Insurance Protection as stipulated by the Council for Private Education. The Fee Protection Scheme serves to protect the course fees that are paid to Private Education Institutes in Singapore. Fees are only considered protected once they are paid to Stamford. Stamford then activates the insurance policy with the appointed provider. The provider will then issue a certificate to the family indicating the amount covered and the period of coverage. Stamford has appointed LONPAC Insurance Bhd to be the FPS provider for our students.

For more information on the Fee Protection Scheme please email finance@sais.edu.sg.

Student Contract

Stamford is required to execute a contract with each and every student prior to being enrolled in the school. As most of our students are under 18 years of age, a parent or the legal guardian is required to execute the contract on behalf of the student.

The Stamford-Student Contract is an important legal agreement between Stamford and parents. Students are not considered fully enrolled at Stamford until a duly-executed contract and Advisory Note (Form 12) is submitted on-line by the parent to the school.

You should only sign this contract if you fully understand and are satisfied with all of the terms and conditions detailed therein. If you have any doubts about the contents of the contract, you should seek advice and clarification before signing. Detailed sections within the Stamford-Student Contract include course information and fees, refund policy, fee protection scheme, medical insurance scheme and additional information relating to the governing law and dispute resolution. Should you require any additional information, do not hesitate to contact Stamford at +65 6602 7247 or by email at accreditation@sais.edu.sg.

Student Support Services

Students may sometimes need extra support as they navigate through school, social life and the other aspects of growing up. The Student Support Department at Stamford American offers a helping hand to all students in managing any academic, emotional, physical or developmental challenges that come their way.

Through a Response to Intervention (RTI) approach, we seek to identify learning and behavioral needs early. We then work towards offering the appropriate support services to our students through our team of counselors, therapists and teachers. Our areas of support are:

Early Intervention

This powerful and proactive student support service program addresses social-emotional, language, cognitive and motor development concerns among young learners at the Early Learning Village.

Academic Support

Students who face academic performance issues have access to remedial lessons to bring them up to par with their peers. Academic support teachers work closely with classroom teachers to design weekly small-group sessions that give students a boost in mastering their subject areas.

Student Support Services

Math Extension

For students who are not yet numbers-oriented, additional small-group instruction is available to give them a better grasp of mathematical concepts taught at their grade level.

Counseling

The Student Support Department runs a comprehensive program to help students overcome social and emotional hurdles. Counseling services are both preventative and responsive, and are administered through individual and group counseling, Check-In/Check-Out (CICO) intervention and school-wide awareness drives.

Speech and Language Therapy

Speech therapists are available for students who experience difficulty in communicating with others. Through a language and communication program, students learn strategies for effective communication inside and outside the classroom.

Occupational Therapy

Whether a student has trouble holding a pencil or paying attention in class, our occupational therapists are on hand to guide students in effectively and happily participating in all areas of school life.

Student Support Services

Intensive Support

In cases where students needs exceptional support services, Special Education teachers get involved in designing individualized programs. These programs will tap on the expertise of a range of education specialists depending on the needs and progress of each student.
