Guardianship & Living Requirements

Students Living Away From Parents

Stamford American International School is committed to providing support for students who are studying and living in Singapore without a parent. Our top priority is ensuring all students reside in safe and well-supported living conditions that promote academic success and well-being. We work closely with families to ensure that all students live in safe, supportive environments that promote their well-being, health and overall success.

Please note that students under 12 years old must live with a parent to enroll at Stamford American.

For students aged 12 and older who will not live with a parent, there are three main options for Guardianship. In all cases, parents must appoint a guardian who meets the criteria outlined below and ensure the school is informed. Completion of the Guardianship Agreement Form is required.

Living With Extended Family - A student living with their maternal or parental grandparents, blood relatives, or adult siblings over the age of 21 who are permanently residing in Singapore.

Boarding - Students above the age of 12 may choose to stay with our preferred boarding partner, Oldham Hall. For more details, please visit the ACS Oldham Hall website.

Homestay - This option is for students whose parents reside permanently out of Singapore. It may involve a paid guardian or a close family friend. Parents may select a guardian who offers professional guardianship services. Homestays are arranged by agents or guardians themselves, with different locations, services, and arrangements. We encourage parents to visit several homestays before making a decision on where to place your child.

For more information, please refer to our [Guardianship FAQs](#).

Fee Protection Scheme(FPS), Student Contracts and Terms & Conditions

Stamford American
INTERNATIONAL SCHOOL

Fee Protection Scheme

The Fee Protection Scheme (FPS) serves to protect students' fees in the event a private education institution is unable to continue operating due to insolvency, and/or regulatory closure.

The FPS is applicable to all students regardless of nationality and the type of passes held by the students, i.e. dependent's pass, student's pass, work permit etc.

In compliance with the new regulations under the Private Education Act 2009, all students' fees must be insured under the Fee Protection Scheme (FPS). All Stamford students are now covered by way of Insurance Protection as stipulated by the SkillsFuture Singapore. The Fee Protection Scheme serves to protect the course fees that are paid to Private Education Institutes in Singapore. Fees are only considered protected once they are paid to Stamford. Stamford then activates the insurance policy with the appointed provider. The provider will then issue a certificate to the family indicating the amount covered and the period of coverage. Stamford has appointed LONPAC Insurance Bhd to be the FPS provider for our students.

For more information on the Fee Protection Scheme please email finance@sais.edu.sg.

Student Contract

Stamford is required to execute a contract with each and every student prior to being enrolled in the school. As most of our students are under 18 years of age, a parent or the legal guardian is required to execute the contract on behalf of the student.

The Stamford-Student Contract is an important legal agreement between Stamford and parents. Students are not considered fully enrolled at Stamford until a duly-executed contract and Advisory Note (Form 12) is submitted online by the parent to the school.

You should only sign this contract if you fully understand and are satisfied with all of the terms and conditions detailed therein. If you have any doubts about the contents of the contract, you should seek advice and clarification before signing. Detailed sections within the Stamford-Student Contract include course information and fees, refund policy, fee protection scheme, medical insurance scheme and additional information relating to the governing law and dispute resolution. Should you require any additional information, do not hesitate to contact Stamford at +65 6653 2949 or by email at contracts@sais.edu.sg

Estimate of the cost of living in Singapore

Accommodation

Housing Development Board (HDB) flats are public housing in Singapore. The advantage of these is that they are cheaper, albeit also more basic in design and amenities.

Based on HDB's rental statistics, it costs about **\$2,250** minimally to rent a 2-room HDB flat, and **\$3,200 to \$4,400** to rent a 5-room HDB flat. However, we've also seen some 5-room HDBs being rented out for as high as **\$6,000+** in prime locations.

Private housing options available for rental are usually **condominium ("condo") apartments**. These will come with a bigger price tag, but are also swankier and sometimes come with amenities like gyms and pools.

If you're looking to rent a condo unit, expect to pay anything from **\$2,000 (non-prime location) to \$10,000 (prime location)** for a studio apartment.

Estimate of the cost of living in Singapore

Transportation costs

Public transport - Bus and train (MRT and/or LRT) fares in Singapore are charged according to the total distance travelled in a journey and this is known as the Distance Fares system. It lets you make transfers without paying a charge each time you board a bus or train during a journey.

Taxi (or Grab/Gojek) rides - **\$15 to \$35** per trip usually depending on distance and varies surcharges

Daily expenses

If you cook at home every day, an estimate of **\$220 - \$390** a month on groceries per pax.

Hawker food and casual dining—On one end of the scale, a meal at a suburban hawker centre can cost as little as **\$3 to \$10** (not including drinks). When it comes to casual dining, budget about \$20.

Estimate of the cost of living in Singapore

Daily expenses

Utility cost - The average monthly electricity, gas, water, and garbage bills for an 85m2 HDB flat would cost **\$160** as in [EDB source](#) , as an estimate depending on tariffs for the period.

Home internet and cable (60 Mbps or more) costs **\$43.60** on average.

Mobile data - You should budget about **\$20 a month** for a basic SIM-only plan. For post-paid subscriptions, it could be **\$34 to \$96**.

Cost of health and personal care

Doctors' visits - Should you get sick and need to visit the doctor, a trip to a General Practitioner (GP) clinic in Singapore will set you back by about **\$30 to \$50** in consultation fees. Private clinics charge around \$80 and up for consultation. Of course, these prices are before any weekend surcharges and costs of medication.

Student Support Services

Student Support Services

Students may sometimes need extra support as they navigate through school, social life and the other aspects of growing up. The Student Support Department at Stamford American offers a helping hand to all students in managing any academic, emotional, physical or developmental challenges that come their way.

Through a Response to Intervention (RTI) approach, we seek to identify learning and behavioral needs early. We then work towards offering the appropriate support services to our students through our team of counselors, therapists and teachers. Our areas of support are:

Early Intervention

This powerful and proactive student support service program addresses social-emotional, language, cognitive and motor development concerns among young learners at the Early Learning Village.

Academic Support

Students who face academic performance issues have access to remedial lessons to bring them up to par with their peers. Academic support teachers work closely with classroom teachers to design weekly small-group sessions that give students a boost in mastering their subject areas.

Student Support Services

Math Extension

For students who are not yet numbers-oriented, additional small-group instruction is available to give them a better grasp of mathematical concepts taught at their grade level.

Counseling

The Student Support Department runs a comprehensive program to help students overcome social and emotional hurdles. Counseling services are both preventative and responsive, and are administered through individual and group counseling, Check-In/Check-Out (CICO) intervention and school-wide awareness drives.

Speech and Language Therapy

Speech therapists are available for students who experience difficulty in communicating with others. Through a language and communication program, students learn strategies for effective communication inside and outside the classroom.

Student Support Services

Occupational Therapy

Whether a student has trouble holding a pencil or paying attention in class, our occupational therapists are on hand to guide students in effectively and happily participating in all areas of school life.

Intensive Support

In cases where students need exceptional support services, Special Education teachers get involved in designing individualized programs. These programs will tap on the expertise of a range of education specialists depending on the needs and progress of each student.
